

IEEE SSCI 2025 Competition Proposal Template

- 1. Competition title**
- 2. Name, affiliation and email of the primary contact person**
- 3. Name, affiliation, and emails of additional competition organizers**
- 4. Competition abstract**
- 5. Competition keywords**
- 6. Competition outline**
Competition outline including competition goals and rules, contributions to the computational intelligence community and/or the society [max 3000 characters]
- 7. How to submit a submission to the competition**
- 8. How to evaluate the submissions**
Evaluation criteria, such as accuracy, novelty, interpretability, scalability, and the like.
- 9. Expected number of entries**
Each competition type will be given a maximum of one session (of a maximum of two hours) during the conference. If your competition will attract many entries, a pre-selection may be required. Please describe your plans for pre-selection.
- 10. Minimal number of participants for the competition to be valid**
If there are not enough participants, the competition will be cancelled.
- 11. Please include the composition of the jury and your conflict of interest policy.**
- 12. URL to the competition home page**
- 13. Plan for competition sponsorships and awards (if any)**
- 14. A short biographical sketch for each organizer, describing relevant qualifications and experience**

Submit your proposal as a PDF/doc file to competition chairs:
